

**Dr Jonathan Bird, BSc, MB, ChB, MRCPsych, FRCPsych
Consultant Neuropsychiatrist**

Jonathan originally read medicine at the University of Bristol, where he achieved the Prize for Physiology and did his junior training in the region. He went on to the Maudsley Hospital for his higher training, winning the prestigious Gas- kell medal of the Royal College of Psychiatrists.

Jonathan then worked as Clinical fellow at McMaster and was exposed to many of their revolutionary teaching approaches before returning to the Maudsley and then completing the circle with a return to Bristol to take up a consultant post at Burden Centre for Neuropsychiatry, Neuropsychology and Epi- leptology, Frenchay Hospital, Bristol.

He has been active throughout his consultant career in Epilepsy Action and served as Chairman of their Professional Advisory Panel.

Jonathan has a private Medico-Legal Practice in the fields of Brain Injury, PTSD, Epilepsy, Mental Capacity, Sleep Disorders, Psychiatric Effects of Physical Injury and all other aspects of Neuropsychiatry.
