

Zoe Lane

I am currently working as a Lead & Named Nurse for Safeguarding Children in NW London.

BSc in General Nursing

Post Graduate Diploma in Paediatric Nursing.

Currently completing MSc in Child Protection and Adult Safeguarding.

Experience in Safeguarding Children and Young People: I have worked in Safeguarding for over 6 years and have been a Safeguarding children's lead, in acute London NHS Trusts, for 4 years. I am currently completing my MSc dissertation in Fabricated Induced Illness (FII).

Key interests are: Neglect, Medical Abuse by Carers/FII, Adolescent Safeguarding, Improvement of Safeguarding Processes and Safeguarding Training of professionals.

Relevant experience to the topic presented: I have worked alongside Child Protection Leads (specialising in Medical Child Abuse) in Seattle. I currently advise on FII for NHS England and have completed a national webinar for them and Health Education England. Due to positive feedback I will be presenting another webinar this year. My interest is due to my involvement in cases both through supervision and my own professional experience.

Other work and expertise: Delivering Safeguarding training to professionals. Advising and supporting on Safeguarding cases, and producing expert reports across the safeguarding partnership for law firms, local authorities and Health through my company The Safeguarding Lane.
